LOCTITE® SEALANTS

Prevent Air and Water Infiltration Around Windows, Doors, Sinks, Tubs and other surfaces. Fills Small Gaps

2 IN 1™ PREMIUM

Delivers an excellent seal across the widest variety of substrates, use under any condition for all projects. Interior, Exterior, around Window and Door, sinks, tubs, and paint prep.

2 IN 1™ TUB & TILE

Seals around common materials and fixtures found in kitchens and bathrooms.

PREPARATION

For neat bead lines, use masking tape along both sides of the joint before application.

For best results, apply sealant at above 0°F and below 140°F.

For best results, apply sealant at above 40°F and below 100°F.

APPLICATION

Smooth bead with a wet finger or a tool. Remove masking tape immediately after tooling and wipe excess off of hands and tools.

REMOVAL FROM SKIN, FABRIC & SURFACES

Immediately clean tools and sealant residue before curing. Cured sealant may be carefully cut away with a sharp-edged tool.

Use mineral spirits when cleaning.

Use warm soapy water when cleaning.
